DESIGNING & DELIVERING EFFECTIVE EDUCATION PROGRAMS

Do you lead staff orientation, professional development or client educational programs? Take part in our five-day workshop and sharpen your skills so you can get the most out of the people you lead and educate.

Our course is aimed at health-care professionals who are educators and offers interactive approaches that will deliver the results you are looking for.

YOU WILL LEARN HOW TO:

- **Define the role of the educator in the change process**
- **Conduct a needs assessment of the learner, the learning environment and the practice environment**
- **Demonstrate basic program development skills, the program planning process and basic design skills required by an educator**
- **Describe the importance of evaluation in education programs**
- **Create session plans that address the needs of the learner**
- **Apply the principles of adult education**
- **Develop appropriate feedback skills**
