# BREAK THE FOSSIL INFLUENCE

Fossil-Free Health  
Communications Campaign

## Doris Grinspun

*Chief Executive Officer,  
Registered Nurses' Association of Ontario (RNAO)*

As health professionals and system leaders, we must cut ties with advertising and PR agencies that serve the fossil fuel industry.

**We must make it clear that we care about health – and we do not want their services. Join the Break the Fossil Influence campaign - and demand fossil-free health communications.**

Break the fossil influence - because **health comes first.**
