Health System Transformation and COVID-19

What kind of mindset and action is needed now?

Sept 14, 2020
6:45pm-8:00pm

Today's Webinar

Welcome

Brief update on COVID-19: Latest news and pressing issues

Examples of successful COVID-19 responses & implications for Ontario

- Balearic Islands (Spain)
- Cuba

Community-anchored care in Ontario

Discussion:

What vision, mindset and action are needed now for real health system transformation?

Questions & answers

Calls to action

Doris Grinspun, RNAO CEO

COVID-19 UPDATES: LATEST NEWS AND PRESSING ISSUES

Balearic Islands (*Islas Baleares*)

An archipelago of islands in Spain (includes Mallorca, Menorca, Ibiza, Formentera and others)

- Primary care approach to contain the COVID-19 pandemic
- Reorganization of care through the community health centers
 - Mobile coronavirus care units
 - COVID-19 coordination centre led by primary care professionals
 - Extensive testing, contact tracing, isolation, monitoring
 - Use of social media-consults

Cuba

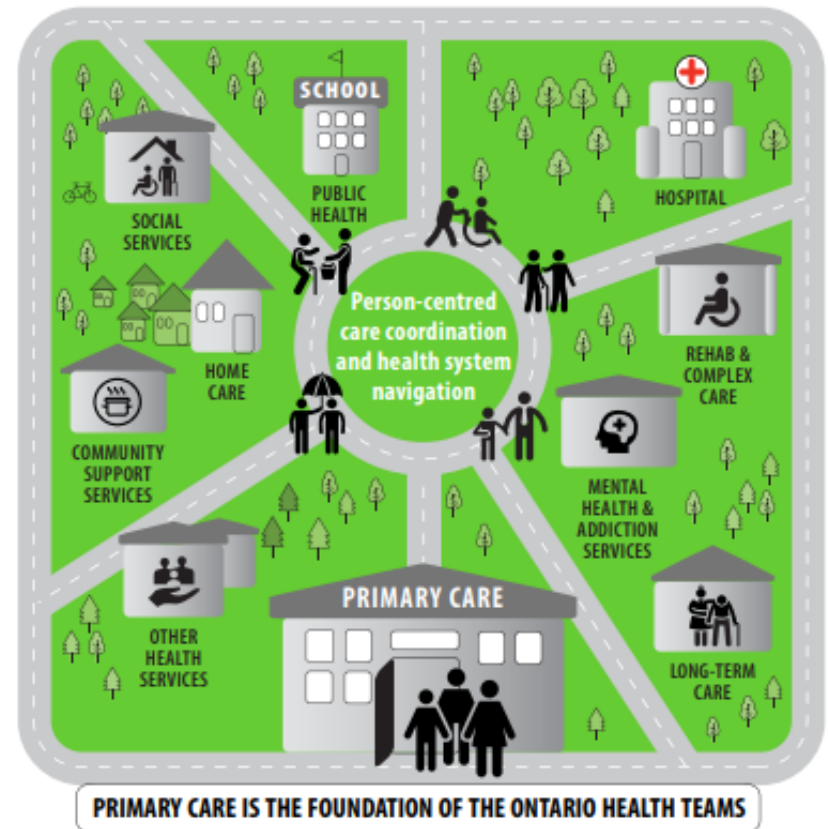

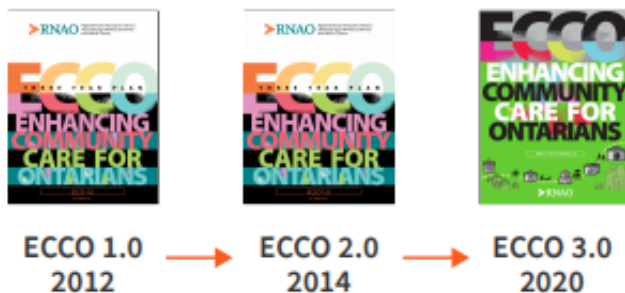

[Photo credit](#)

- Recognizes health as a human right
- Community-embedded nurses and doctors focus on health promotion and disease prevention
- Prepared a “prevention and control plan” in Jan 2020
- Imposed early restrictions
- Active community surveillance

Community-anchored care

What is ECCO?

Enhancing Community Care for Ontarians (ECCO) calls on government and health system partners to strengthen community care and anchor the health system in primary care to better meet the health needs of all Ontarians. First released in 2012 and next in 2014, ECCO 3.0 aligns with much needed health system transformation that responds to the COVID-19 pandemic.

ECCO Model 3.0
