## About RNAO:

The Registered Nurses' Association of Ontario (RNAO) is the professional association representing registered nurses, nurse practitioners and nursing students in Ontario. Since 1925, RNAO has advocated for healthy public policy, promoted excellence in nursing practice, increased nurses' contribution to shaping the health system, and influenced decisions that affect nurses and the public we serve. For more information about RNAO, visit [RNAO.ca](https://www.rnao.ca) or follow us on [Twitter](#), [Facebook](#) and [Instagram](#).

## About BPSO:

RNAO's Best Practice Guideline (BPG) Program is funded by Ontario's Ministry of Health. It was envisioned by CEO Dr. Doris Grinspun in 1998 and launched in 1999 to provide the best available evidence for patient care across all health sectors and settings, with more than 50 guidelines developed to date. The Best Practice Spotlight Organization® (BPSO®) program supports service and academic institutions that have formally agreed to implement multiple RNAO BPGs over a three-year period, and evaluate their impact on patients, organizations and health systems. Launched in 2003, the BPSO program now has more than 1,500 BPSOs in Ontario, Canada and internationally.
