

What's new in best practices webinar

Pressure Injury Management: Risk Assessment, Prevention and Treatment, Fourth Edition Best Practice Guideline

What will I learn from this webinar?

- the purpose, scope and key recommendations of this best practice guideline (BPG)
- RNAO's BPG development process, including the role of an expert panel of interprofessional health providers, researchers, policymakers and people with lived experience
- next steps for kickstarting implementation and evaluation of the BPG in your practice setting
