

Please join us for RNAO's annual

Clinical BPG Institute

Now more than ever we need health-care providers to have the know-how to lead change and be effective change agents.

-  RNAO's Clinical BPG Institute is designed for nurses and other health-care professionals who are interested in developing the knowledge and skills necessary to lead and sustain practice change in their organizations.
-  The foundation of the institute's curriculum is RNAO's recently released **Leading Change Toolkit**. It is designed to help change agents and change teams make lasting improvements in health care.
-  The program will emphasize implementation science theory, the shared experiences of those leading change within the health system and practical tools to support success.

The institute consists of a series of **five virtual sessions** offered on a weekly basis.

Sessions will take place **Tuesday afternoons from Nov. 16 to Dec. 14, 2021 from 1 - 3:30 p.m. ET** with networking and focused discussions from **3:30 - 4 p.m. ET**.

Don't miss out on this opportunity to learn about the evidence, tools and strategies you need to lead change in your organization.
