RNAO’s International Affairs & Best Practice Guidelines Program

Best Practice Spotlight Organization®

Request for Proposals in Ontario (Ref No. BPSO® RFP - 2020)

Closing Date: December 7, 2020

The Registered Nurses’ Association of Ontario (RNAO) is requesting Proposals from interested and eligible health service and academic entities located in Ontario, to work in collaboration with the RNAO in implementing and evaluating multiple clinical nursing best practice guidelines (BPGs), and disseminating knowledge from their experiences and outcomes with guideline implementation; to attain Best Practice Spotlight Organization® (BPSO®) designation. Funding for this initiative has been provided by the Government of Ontario¹.

Background

To date, 15 BPSO Hosts and 219 BPSO Directs representing over 1000 health service and academic organizations (as of mid 2020) are active in the BPSO Designation Program. Over 500 health service and academic organizations are in Ontario, with others across Canada, and in Australia, Belgium, Chile, China, Colombia, Italy, Jamaica, Peru, Philippines, Portugal, Qatar, Turks and Caicos and Spain.

This RFP is targeted to select a new cohort of BPSOs in Ontario. Successful applicants will engage for three years in a formal agreement with RNAO. During this time, organizations focus on enhancing their evidence-based cultures, with the mandate to implement and evaluate at a minimum five RNAO clinical practice guidelines.

At the end of the 3 year pre-designation period, and assuming all deliverables are met, the organizations achieve “BPSO Designate” status. As a designated BPSO, an organization focuses on sustainability and commits to continue the implementation, evaluation, spread and expansion of best practice guidelines in their organization and to serve as a mentor to new BPSO, locally, nationally and internationally. BPSO Designation is renewed every two years, assuming deliverables are met.

¹ If, pursuant to the provisions of the Financial Administration Act (Ontario), RNAO does not receive, via the Province of Ontario, the necessary appropriation for payment under this agreement, RNAO is not obligated to make any such payment, and, as a consequence RNAO may reduce the funding available, or terminate the agreement.
This Request for Proposals is issued in Ontario every three years, and invites organizations to apply to become a BPSO.

**Instructions to Applicants**

1. An electronic letter of intent should be submitted to the attention of the—Heather McConnell, Associate Director, Guideline Implementation and Knowledge Transfer, International Affairs and Best Practice Guidelines Centre through Andrea Stubbs, Project Lead at astubbs@RNAO.ca by 4:00 pm ET on November 16, 2020. The letter should include a statement expressing the organization’s intent to submit a full proposal by the December 7, 2020 deadline. Letters of intent should also indicate that the applicant understands the requirements of the Request for Proposal and include a brief description of the level of organizational support. Although letters of intent are not mandatory, the receipt of such letters will help us in our planning process. Instructions related to the online application process will be released after the letter of intent deadline.

2. Proposals in response to this RFP must be entered online by 4:00 pm ET on December 7, 2020. The proposal submission website will be closed at 5:00 pm ET.

3. All questions or inquiries concerning this RFP must be received in writing or by email no later than five (5) business days (November 30, 2020) prior to the proposal deadline and be submitted to Andrea Stubbs at astubbs@RNAO.ca for the attention of the Associate Director – Heather McConnell, International Affairs and Best Practice Guidelines Centre. An email response to the inquiry will be provided by RNAO. Verbal responses to any inquiry cannot be relied upon and are not binding on either party.

4. If an Agreement is to be awarded as a result of this RFP, it shall be awarded to the applicant who has the capacity in all respects to fully perform the requirements of the initiative, and the integrity, reliability and accountability to assure achievement of the deliverables in the Agreement.

5. In the event of any inconsistency between this RFP, and the ensuing Agreement, the Agreement shall govern.

6. The RNAO has the right to amend or cancel this RFP at any time, and to reissue it for any reason whatsoever without incurring any liability, and no applicant will have any claim against the RNAO, any of its staff, or the Government of Ontario, as a consequence.

7. Any and all amendments made by the RNAO to the RFP will be issued on the RNAO website (www.RNAO.ca) up to and including a date ten working days prior to the deadline.
8. The RNAO is not liable for any costs related to the preparation or presentation of proposals.

9. The BPSO Proposal Evaluation Committee will review each submission, and in its sole discretion and without liability to any organization and/or person, shall have the right to disqualify any proposal that contains false information or if, on its face, the proposal has a conflict of interest. Moreover, the RNAO reserves the exclusive right to determine the qualitative aspects of all proposals relative to the evaluation criteria.

10. Proposals may be short-listed and applicants may be requested to provide further information and/or make revisions prior to final selection.

11. The applicant’s proposal and accompanying documentation shall become the property of the RNAO and will not be returned. All information and data supplied by the applicant will be held in confidence by RNAO and will not be disclosed to parties other than the BPSO Proposal Evaluation Committee without the prior written consent of the applicant.
Terms of Reference

Overview

The Registered Nurses’ Association of Ontario (RNAO), through funding from the Government of Ontario, launched in 1999 a multi-year program to develop, disseminate, and actively support the uptake and sustainability of evidence-based practice guidelines, and evaluate their impact on patient/client/resident, organizational and health system outcomes.

The Nursing Best Practice Guideline Program has, to date, produced over 50 clinical, system & healthy work environments guidelines, including a toolkit\(^2\) to aid in the implementation of the guidelines in practice settings, an educator’s resource\(^3\) to facilitate guideline implementation in the health care curriculum and a myriad of educational programs offered across Canada and internationally\(^4\). The published guidelines are disseminated widely and uptake is supported using a multi-pronged approach that includes an individual, organizational and broad health system focus. The BPSO Designation is targeted to specifically support guideline implementation at the individual and organizational level, supporting organizations as they work to create evidence-based practice cultures through a formal partnership with RNAO focused on implementing multiple clinical practice guidelines. For details on all our implementation supports, and to see the full list of best practice guidelines, visit www.RNAO.ca/bpg.

BPSO Designation Description

The BPSO designation is an opportunity for health service and academic entities (i.e. Schools of Nursing) to partner with RNAO to create evidence-based practice cultures in their organizations through systematic implementation of multiple RNAO clinical best practice guidelines. The objectives of this designation program are to:

1. establish dynamic, long-term partnerships that focus on making an impact on client care through supporting evidence-based practice;
2. demonstrate creative strategies for successfully implementing best practice guidelines at the individual and organizational level;
3. establish and adopt effective and consistent approaches to evaluate implementation utilizing structure, process and outcome indicators; and
4. identify effective strategies for system-wide dissemination of BPG implementation and impact on outcomes.

Organizations selected through this RFP will be referred to as a **Best Practice Spotlight Organization (BPSO)**. As BPSOs, health service and academic entities will contribute significantly to our growing understanding of implementation science, and to the ongoing evaluation of the impact of RNAO’s best practice guidelines on patient, staff, organizational and health system outcomes. The BPSOs will work collaboratively with RNAO, and provide expert resources to the initiative to enable the BPSOs to respond to the quadruple aim of 1) improved patient experience, 2) better outcomes, 3) cost efficiency and 4) improved team experience. RNAO will commit expert resources and coaching supports based on funding from the Government of Ontario and the BPSO will commit finances - actual and/or in-kind - and expertise from its own resources, leveraging existing quality improvement activities.

**At minimum, the BPSO will commit to:**

1. Engage in a three-year partnership with RNAO, to be reviewed annually and renewed annually, provided criteria are met.

2. Contribute the necessary human and financial resources (actual and/or in-kind) to support guideline implementation, evaluation and sustainability during the initial three-year pre-designation period, and as a BPSO Designate.

**Implementation:**

1. Implement a minimum of five (5) RNAO **clinical** best practice guidelines. Two mandatory guidelines for implementation, chosen to align with the provincial government’s health system transformation agenda, are: 1) *Person and Family Centred Care (2015)*, and 2) *Care Transitions*. One (1) of the guidelines for implementation (of the remaining 3) must be selected from the mandatory list identified in Appendix A. The remaining two guidelines may be selected from Appendix A or RNAOs published list of clinical guidelines (Appendix B) in order to address identified priority clinical needs. The *Person and Family Centred Care (2015)* and *Care Transitions* must be implemented organization wide or across the curriculum (in the case of academic entities). The remaining three guidelines (of the 5 total) may be implemented within specific units/programs (or academic courses), across an entire program/department (curriculum), or across the entire organization (corporate strategy), depending on organizational need.

   The implementation of three (3) guidelines must be initiated in Year 1. The remaining two (2) guidelines selected for implementation may be initiated in Year 1 or Year 2, based on the needs of the organization. Implementation of the required five (5) clinical BPGs must be completed by the end of Year 2 at the latest, in order to allow for integration, sustainability and evaluation in Year 3.

   Systematic implementation of the five guidelines includes: conducting a gap analysis.
against the recommendations of the selected guideline; identification of priority recommendations; the introduction of substantive practice changes to address these priorities, which may include educational and policy implications. The practice changes need to demonstrate impact on health outcomes (see evaluation).

2. The BPSO are encouraged to implement RNAO BPG Order Sets for, at minimum, the three (3) mandatory guidelines. BPG Order Sets are implementation tools that support the integration of practice changes within electronic or paper based documentation systems. RNAO will provide the BPSO with free access to RNAO’s BPG Order Set library via the BPG Order Set website once the BPG Order Set agreement has been signed.

**Capacity Development:**

3. Engage a critical mass of at least 15% of the nursing staff (or faculty/students for academic sites), and other members of the interprofessional team as appropriate, in the role of RNAO Best Practice Champions, over the span of the three year pre-designate period. The intent is to develop capacity among a cohort of nurses and other health providers, as well as persons with lived experience such as patients and/or their family members, who are able to support guideline implementation and evaluation. Champion development targets should be carried out according to the following schedule: Year 1 - 6%; Year 2, an additional 6%, totaling 12%; Year 3, and additional 3%, totaling 15%. In organizations of 25 nursing staff or less, the target is for 20% of these staff to be prepared as Champions by the end of Year 3.

4. Send nursing and other staff to the RNAO Institutes (either the Foundational or Advanced Stream) in each year of the partnership according to the following formula:
   - for organizations with 1000 or more registered nursing staff, three (3) nurses and/or other health professionals;
   - for organizations with 100-999 registered nursing staff, two (2) nurses and/or other health professionals; and,
   - for organizations with less than 100 registered nursing staff, one (1) nurse or other health professional.
   - For organizations with less than 10 registered nursing staff, the number of nurses or other health professionals will be determined on an individual basis.

5. Submit proposals, by registered nurses, to participate in the RNAO Advanced Clinical Practice Fellowship (ACPF) Program over the span of the 3 year partnership according to the following formula:
   - for organizations that have 500 or more full time/part time registered nurses on staff, submit a minimum of one (1) proposal per year over the three-year pre-designation period;
• for organizations with 50 to 500 registered nurses on staff, two (2) proposals over the three year pre-designation period;
• for organizations with fewer than 50 registered nurses on staff, submit one (1) proposal over the three year pre-designation period; and,
• for academic entities, submit one (1) proposal by a faculty member or student over the three year pre-designation period.

As the intent is to develop capacity in guideline implementation, the submissions must be related to the guidelines being implemented as part of the BPSO Designation.

6. Maintain a database of internal human resources who are engaged in BPSO-related activities through the Best Practice Champions Network®, ACPF, Clinical BPG Institute, etc., and plan a program for knowledge exchange.

7. Provide 0.5-1.0 FTE registered nurse (preferably master's prepared), for the position of BPSO Lead to coordinate the implementation and evaluation activities. BPSO Leads may be from other health disciplines, depending on the setting and service delivery model.

8. Establish a BPSO infrastructure including a steering committee responsible for the BPSO Designation within their organization and include a reporting and accountability structure to guide the work of the BPSO Lead and the implementation team(s). This reporting structure should include a communication strategy to the senior leadership team, and the entities institution's Board of Directors/Governors and/or Senate.

9. Commit to working with an assigned RNAO BPSO Coach (RNAO staff member) throughout the three-year period, including scheduling a meeting within the first month of the BPSO pre-designation period and at least monthly in years 1 & 2 and reassess frequency in year 3.

10. Commit to working with a BPSO Designate mentor organization, as appropriate, in order to develop guideline implementation, evaluation, sustainability and spread capacity.

11. Develop a sustainability plan for the first 2 years of BPSO designation that includes integration of the best practice guidelines with organizational structures, processes/curriculum and staff roles, and bolsters BPG spread and expansion activities as a BPSO Designate.

Evaluation and Research:

12. Mandatory participation in the RNAO international indicator data system Nursing Quality Indicators for Reporting and Evaluation® (NQuIRE®), which collects data on human resource structure, nursing practice, and patient outcome indicators. It is
required that an NQuIRE Data Usage Agreement be signed by the BPSO upon acceptance as a BPSO and prior to commencing participation in NQuIRE.

a) The minimum requirement for NQuIRE participation is to consistently submit data monthly, quarterly or annually, depending on the type indicator (structure - annually, for units, teams, programs or services as outlined below:
   • For health service organizations, a minimum of two (2) structural indicators
   • For the Person and Family Centred Care and Care Transitions guidelines, submission of mandatory process and outcome indicators is required.
   • For one additional guideline (of the three remaining), minimum of one (1) NQuIRE process and one (1) NQuIRE outcome indicator will be submitted by the BPSO.
   • Baseline data submission is required on the process and outcome indicators chosen above for a period of 3-12 months (as available) prior to the initiation of implementation activities. In addition, guidelines previously implemented prior to the start of the BPSO work are to be identified, to provide some context for the pre-implementation data.
   • For academic entities, evaluation will include the development and/or identification of process and outcome indicators measuring the impact of guideline implementation on student and organizational outcomes.

b) Collect and submit indicator data:
   • The RNAO will provide the BPSO with the data collection requirements and data collection tools (via NQuIRE’s web-based data system for inputting data) for the quality indicators chosen for monitoring and evaluating the best practice guidelines selected for implementation. BPSOs will be able to produce their own automated reports via the data system’s web interface.
   • The RNAO will provide training and guidance on how to collect data.
   • Data collected from health service BPSOs will not include individual client identifiers, and will be aggregated to determine the impact of clinical best practice guidelines on client outcomes, nursing practice and organizational performance.

c) Collect and share results based on customized evaluation metrics (e.g., patient mobility rates or student experience ratings) and/or data collection from other data repositories (e.g., interRAI Community Mental Health Assessment) that demonstrate the impact of implementing the best practice guidelines in health service or academic entities and/or complement the NQuIRE results.

d) Conduct regular quality improvement monitoring activities related to implementation of each best practice guideline and submit results in semi-annual reports to RNAO.
e) Each BPSO is required to submit a "MyBPSO" progress report twice per year. This online qualitative report captures information about capacity development, practice changes, successes and challenges. It provides a mechanism for RNAO to track progress, focus coaching efforts, support rapid learning and identify impact stories.

13. Take advantage of opportunities to participate in research projects, as requested by RNAO and as appropriate, related to evidence uptake, client, student, organizational, financial and/or health system outcomes, as well as policy formulation/evaluation. This could include the involvement of researchers or graduate students external to the organization who could support the facilitation of research and capacity building within the BPSO and inform practice and policy and improve outcomes across organizations or sectors.

14. Participate in forums that will provide the BPSO opportunities for linking with researchers and others related to evidence-based practice, specifically guideline implementation, evaluation and sustainability.

15. Leverage activities related to third-party accreditation with BPSO work, as applicable.

**Dissemination:**

16. Present a minimum of one (1) paper/poster in each of the three years at local, provincial, national or international conference(s), highlighting the outcomes of guideline implementation (one or more of the five guidelines selected for implementation), and acknowledging the Government of Ontario, the RNAO and the BPSO designation.

17. Submit a minimum of one (1) manuscript for publication (preferably peer reviewed) during the three year BPSO pre-designation period related to outcomes that result from best practice guideline implementation, and provide RNAO with citations of all BPSO-related publications for posting on RNAO’s website.

18. Include the following statement of acknowledgement on all presentations, publications and other BPSO-related dissemination activities:

“This work is part of the BPSO Designation Program, funded by the Government of Ontario. For more information about the RNAO BPSO Program please visit www.RNAO.ca.”

19. Display the BPSO logo, provided by RNAO, on any professional practice, nursing, and BPSO related work, and acknowledge BPSO status in relevant organizational communication and dissemination activities (i.e., institutional website, annual report, newsletter, Nursing Week events, etc).
20. Share learnings, materials developed and achievements with the wider health-care and academic communities. This dissemination can be advanced through posting of implementation resources on the RNAO website (e.g., BPSO library of resources) or through participating in events, such as at the RNAO Institutes and knowledge exchange events, as well as important forums such as the International Council of Nurses and Sigma Theta Tau International.

21. Develop a BPSO webpage on the host organization website by the end of the first year to disseminate information about the BPSO designation. Links to the RNAO website will be facilitated.

22. Create a Social Media presence, according to organizational policies, using #xxxxxBPSO.

**Sustainability, Spread and Scaling Up – Designated BPSO after 2024:**

At the end of the 3-year BPSO pre-designation period, and assuming all deliverables are met, the organization will achieve “BPSO Designate” status. As a designated BPSO, and in order to maintain the BPSO designation (renewable every two years), organizations are expected to focus on sustaining and spreading current guidelines, expanding guideline implementation internally and externally, and supporting other organizations in the development of evidence-based practice cultures. Specific deliverables will be delineated in the BPSO Designate Agreement Terms and Conditions, and will address the following areas:

i. Continue to maintain a BPSO Lead (preferably master’s prepared who will support guideline implementation, evaluation and sustainability). The BPSO Lead maintains a relationship with RNAO through the BPSO Coach. Frequency of meetings to be determined in consultation with RNAO.

ii. Continue to support staff participation in capacity building opportunities (e.g., Best Practice Champions Network, RNAO professional development offerings, Advanced Clinical Practice Fellowships, Knowledge Exchange Symposium, etc.) and maintain engagement of a minimum of 15% of staff (nursing and the interprofessional team) as Champions.

iii. Sustain guideline implementation and evaluation activities, including NQuIRE participation initiated during the BPSO pre-designation period, and spread this work to other practice areas within the organization.

iv. Initiate the implementation and evaluation of two (2) additional guidelines (at least one must be clinical) within the two year designation period to address service delivery needs or academic priorities of the respective BPSO. The implementation of one of these guidelines must be initiated during the first year.
v. Support the broader health community by serving as a mentor to new BPSO organizations, during their pre-designation period, at the local, national or international level.

vi. Continue to disseminate the outcomes of the BPSO designation through conference presentations, social media, publications etc.

**The RNAO, at minimum, will commit to (pre-designate period):**

1. Provide the BPSO with access to published and electronic guidelines and BPG Order Sets.

2. Provide the BPSO with an orientation to the IABPG Centre, the BPSO Designation and to specific guidelines and implementation resources, as appropriate, through funding from by the Government of Ontario.

3. Support Champion development and BPG capacity building through provision of Best Practice Champions workshops and virtual programs, access to the Best Practice Champions Network, and RNAO’s Clinical BPG Institute.

4. Provide expert consultation on guideline implementation, uptake and evaluation through an assigned BPSO Coach.

5. Enable access to implementation resources.

6. Provide opportunities to BPSOs to participate in various aspects of guideline development, implementation projects and dissemination activities. These opportunities would be mutually agreed upon by both parties.

7. Facilitate participation in the network of BPSO Leads for the purposes of knowledge transfer and exchange, through regular teleconferences, or other meetings/events.

8. Host an annual BPSO Symposium to support continued capacity development, knowledge dissemination and networking opportunities with other BPSOs and support BPSO attendance through funding from the Government of Ontario.

9. Host report review meetings on a semi-annual basis (via tele/video-conference) with each BPSO to review myBPSO reports, monitor progress and provide recommendations. The first meeting will take place after six months within the program, and will include key organizational decision-makers, and the RNAO leadership team, including the BPSO Coach.

10. Conduct a minimum of one site visit over the three year period, at a mutually agreed upon time, to review implementation, monitoring and evaluation activities.
11. Provide an RNAO BPSO Coach for each BPSO. The RNAO BPSO Coach will be a point of contact for the BPSO, and their role will include consultation, coaching, regular meetings (at minimum every month), linking with resources, referrals and site visits as necessary during the pre-designation period.

12. Identify and direct appropriate research opportunities to the BPSO.

13. Support a consistent approach to data collection by the BPSO through the international indicator data system Nursing Quality Indicators for Reporting and Evaluation™ (NQuIRE) of structure, process and outcome indicators through specifying indicators for best practice guidelines being implemented as well as by providing relevant instruments to the BPSO along with instruction and guidance for collecting these data. NQuIRE training is provided through consultations and web-based resources, and will include, but not be limited to, support on reporting via the NQuIRE web-based platform and creating automated reports.

14. Provide BPSOs with template for the Evidence Boosters document that demonstrates the impact of guideline implementation using NQuIRE data and customized evaluation metrics (e.g., patient mobility rates or student experience ratings) and/or other data repositories (e.g., interRAI Community Mental Health Assessment).

**Eligibility Criteria for BPSO Applicants:**

Organizations are considered eligible to apply to this BPSO Request for Proposals if they meet the following criteria:

1. Have demonstrated a commitment to evidence-based practice by previous implementation of one or more RNAO clinical nursing best practice guidelines.

2. Have supported staff to participate in opportunities to develop capacity in evidence-based practice such as Best Practice Champions Network, Advanced Clinical Practice Fellowship, attendance at RNAO professional development offerings and other quality improvement capacity building initiatives.

3. Have strong and explicit support from the board of directors, top senior management official (CEO/President), senior nurse leader (CNE/CNO or Dean/Director), clinical nursing staff/faculty/students, union leader and other key stakeholders – for evidence-based practice and demonstrated support to the nursing profession and to the implementation of RNAO’s best practice guidelines.

4. Have an organizational vision, mission and/or mandate that provides for an opportunity to leverage other initiatives related to evidence-based practice, quality improvement, patient safety, student experience and/or outcomes improvement.
5. Have the capacity to implement, monitor and evaluate nursing best practice guidelines including the monthly collection and quarterly submission of data on NQuIRE indicators and customized evaluation metrics and/or other data repositories at baseline prior to implementation and at post-implementation intervals. This includes involving from the outset an informatics/IT or decision support person as a member of the NQuIRE team, to understand and support the evaluation deliverables.

6. Have capacity to hire (with funds committed to this initiative) a BPSO Lead (0.5-1.0 FTE) registered nurse (preferably master’s prepared) who will coordinate guideline implementation, evaluation and sustainability activities. BPSO Leads may be from other health disciplines, depending on the setting and service delivery model.

7. Have demonstrated ability to engage in successful partnerships within the health-care/academic community, across a range of sectors.

8. Have the capacity and commitment to meet the requirements of the terms and conditions of the BPSO Designation (following the three year pre-designation period) in order to maintain their earned BPSO Designation (renewable every two years, assuming terms and conditions are met).
Proposal Evaluation

Selection Methods

1. Rating

The BPSO Proposal Evaluation Committee will utilize specific criteria to rate each proposal. Ratings will be confidential and no details will be released to any of the other Applicants.

Each proposal will be evaluated using the following criteria:

a) Scope of Work, including mandatory guidelines selected 20%
b) Organizational support 20%
c) Previous experience with RNAO guideline implementation 10%
d) BPSO Team’s knowledge, skill and experience 15%
e) Capacity to deliver on BPSO requirements and sustain outcomes 20%
f) Financial contribution 15%

2. Application Process

2.1 Letter of Intent:

An electronic Letter of Intent to submit a proposal should be received by Andrea Stubbs, Project Lead, at astubbs@RNAO.ca with a confirmation of receipt by 4:00 pm ET November 16, 2020. Links to the online application form will be released on this date for those that have submitted a Letter of Intent. Please note that the Letter of Intent is not mandatory or binding, and organizations may choose to withdraw their Letter of Intent prior to the deadline. Receiving Letters of Intent support the planning for the proposal review process. The letter of intent should include:

- Name of organization and key contact person.
- Indication that the requirements of the Request for Proposal are understood.
- Description of organizational support.

2.2 Proposal

The following details should be provided in each proposal submitted. This information will be utilized in evaluating each proposal received. The online application form provides questions within each of a set of categories, with a description of the number of words/characters for each response. Appendices (attachments to be uploaded) are restricted to letters of support, resumes, guideline implementation summary, budgets (for 3 years) and no more than 2 pages of other relevant information that will support the proposal.

Scope of Work to be Performed (20%):
Provide an overview which demonstrates that the applicant organization understands the purpose and objectives of the BPSO Designation. Describe the size of the organization where guideline implementation will take place, including the number of clients, number of regulated and non-regulated nursing staff and other health professionals, along with a summary of staffing models. For academic entities, a description of the structure of the program, number of faculty and students in all applicable programs is required. The applicant will identify the total number of champions to be prepared and the target number for each year of the pre-designation period which should be planned according to the following schedule: Year 1: 6%; Year 2: plus 6%, totaling 12%; Year 3: plus 3%, totaling 15%.

The applicant organization will state which RNAO best practice guidelines (BPGs) it intends to implement in order to address gaps in service, and how these guidelines were identified. This must include a minimum of five (5) RNAO clinical best practice guidelines (three of which must be selected from the list in Appendix A). The remaining guidelines may be implemented within specific units/programs (or academic courses), across an entire program/department, or across the entire organization (curriculum), depending on organizational need. The implementation of three (3) guidelines must be initiated in the Year 1. The two (2) guidelines selected for organization-wide implementation must be implemented across the entire organization (curriculum) by the end of the Year 2. Implementation of the required five (5) BPGs must be completed by the end of Year 2, at the latest, in order to allow for integration and evaluation in Year 3.

The applicant will identify and describe the desired short- and long-term goals of the BPSO experience and how their approach to guideline implementation, monitoring and evaluation will impact on nursing practice, client/student and organizational outcomes.

Through quality improvement processes, applicants will demonstrate commitment to monitoring changes in nursing practice, and client and organizational outcomes related to the implementation of the guidelines. The applicant will include an explicit statement related to their agreement to meet the data collection and data submission requirements for BPSO. The scope of the initiative (at the unit and/or organizational level), and the number of units/courses and staff involved should be described, including the associated timeframes for implementation of each BPG, over the 3-year BPSO pre-designation period. Appendix C provides a template to summarize the scope of guideline implementation, and the template in Appendix D is to be used to describe a high level work plan. The applicant will identify and describe the desired short- and long-term goals of their BPSO work and how their approach to guideline implementation, monitoring and evaluation will impact on nursing practice, client/student and organizational outcomes.

Applicant organizations should indicate, where appropriate, any other organization that would be involved in the BPSO Designation by virtue of ongoing relationships/partnerships.
Organizational Support (20%):

Organizational support is a clear contributor to a successful BPSO Designation. In this section, clearly demonstrate the extent of organizational support at all levels including staff support from all relevant disciplines. Letters of support are required, at minimum, from the Chairperson of the Board (as applicable), Chief Executive Officer (or equivalent), Chief Nursing Officer/Chief Nursing Executive or Dean/Director, union representative (as applicable) or representative of nursing staff (RN, RPN) where no union is involved. Letters of support acknowledge and commit to the ongoing requirements that are part of the BPSO Designation. The letter of support from the senior sponsor should include a description of how the BPSO will ensure regular communication about the BPSO activities to the governance level of the organization, including the Board, while acknowledging and committing to the ongoing requirements that are part of the BPSO Designation. These letters should be uploaded as attachments.

Previous Experience with RNAO Guideline Implementation (10%):

Describe which RNAO guidelines, either clinical or healthy work environment, have been implemented, or are currently being implemented within the organization. Discuss which levels (units, teams, programs) of the organization are currently involved in implementation, strategies used, existing infrastructure, resource allocation, challenges and barriers faced, and how these are being addressed. Include a discussion of how the interprofessional team has been engaged in the process to date. Describe how you have utilized your Best Practice Champions (stating the number of Champions that are currently working in your organization), Advanced Clinical Practice Fellows, and RNAO professional development program attendees in your guideline implementation work, as applicable.

BPSO Team's Knowledge, Skill and Experience (15%):

Provide an overview of the structure of the proposed BPSO Designation, including how guideline implementation will be managed. Describe the skills of the BPSO Lead in relation to this work (résumé or CV of BPSO Lead to be uploaded as an attachment; résumés or CVs of other relevant staff may be included if appropriate). Include a description of how existing quality improvement staff will be integrated into BPSO activities.

Capacity to Deliver on BPSO Requirements and Sustain Outcomes (20%):

Provide evidence of internal resources and the capacity to meet BPSO requirements and sustain outcomes (e.g., clinical and program management expertise, access to equipment, buy-in from key stakeholders, information management and technology support, etc). This description will also address the organization's capacity to provide
data on nursing, client/student, and organizational outcomes as part of NQuIRE, and include examples of any such indicator data collection or management systems currently employed within the organization.

In addition, discuss how the applicant organization will sustain involvement in staff capacity development opportunities, guideline implementation/spread and evaluation activities as a BPSO Designate.

Provide evidence of involvement in other initiatives that the organization has undertaken which would be comparable to the scope of the BPSO Designation. Describe past relevant experience that supports the applicant organization’s capacity to engage in the BPSO Designation. A letter of support from a past or current partner may be uploaded, as appropriate.

**Financial contribution (15%):**

Provide a detailed budget for Year 1, Year 2 and Year 3 of the BPSO pre-designation period. The budget must be itemized as follows: human resources, special consultations, quality improvement monitoring, education/training, and implementation resources. Expenses related to Clinical BPG Institute attendance, ACPF support and related expenditures should be reflected in the budget, based on the requirements list on page 6 of this RFP. Refer to Appendix E for a sample budget template.

### 3. The Agreement

Any award from the RFP is conditional upon the applicant entering into an Agreement with the RNAO to perform the services and other obligations described in this proposal.

The Agreement will contain the relevant provisions of this RFP and of the successful proposal, as well as such other terms as may be mutually agreed upon, whether arising from the proposal or as a result of any negotiations prior or subsequent thereto.

If a successful applicant fails to enter into the Agreement within thirty (30) calendar days of receipt of notification that the applicant’s proposal has been accepted, or if any applicant wishes to make amendments to the Agreement terms that are not acceptable to RNAO, RNAO shall have the right, in its sole discretion and without liability to any person or organization to:

a) Extend the period for negotiation or signing of the Agreement  
b) Cease negotiations with the applicant and enter into negotiations with any other applicant without issuing a new RFP  
c) Not enter into the Agreement with that applicant
d) Cancel this RFP, or
e) Issue a new RFP.

Engaging Clients Who Use Substances, 2015

Appendix B: List of Best Practice Guidelines (BPGs)

Clinical Best Practice Guidelines:

1. A Palliative Approach to Care in the Last 12 Months of Life (2020)
2. Adult Asthma Care: Promoting Control of Asthma, 2017
3. Assessment and Care of Adults at Risk for Suicidal Ideation and Behaviour, 2009
5. Assessment and Interventions for Perinatal Depression, Second Edition, 2018
   - Replaced *Interventions for Postpartum Depression*, 2005
   - Replaced *Assessment and Management of Stage I to IV Pressure Ulcers*, 2007
9. Assessment and Management of Venous Leg Ulcers, 2007
11. Care Transitions, 2014
   - Replaced *Crisis Intervention*, 2006
   - Replaced *Caregiving Strategies for Older Adults with Delirium, Dementia and Depression*, 2010 and *Screening for Delirium, Dementia and Depression in Older Adults*, Revised, 2010
14. End-of-Life Care During the Last Days and Hours, 2011
15. Engaging Clients Who Use Substances, 2015
16. Enhancing Healthy Adolescent Development, 2010
17. Establishing Therapeutic Relationships, 2006
18. Facilitating Client Centred Learning, 2012
19. Implementing Supervised Injection Services, 2018
20. Initiation, Exclusivity, and Continuation of Breastfeeding for Newborns, Infants, and Young Children, Third Edition, 2018
   - Replaced *Breastfeeding Best Practice Guidelines for Nurses*, 2007
   - Replaced *Integrating Smoking Cessation into Daily Nursing Practice*, 2007
22. Nursing Care of Dyspnea: The 6th Vital Sign in Individuals with Chronic Obstructive Pulmonary Disease (COPD), 2010
23. Oral Health: Supporting Adults who Require Assistance, 2020
   - Replaces *Oral Health: Nursing Assessment and Interventions*, 2008
24. Person-and Family-Centred Care, 2015
   • Replaced *Client Centred Care*, Revised 2006
   • Replaced *Prevention of Falls and Fall Injuries in the Older Adult*, 2011
28. Preventing and Addressing Abuse and Neglect of Older Adults: Person-Centred, Collaborative, System-Wide Approaches, 2014
32. Reducing Foot Complications for People with Diabetes, 2007
33. Risk Assessment and Prevention of Pressure Ulcers, 2011
34. Strategies to Support Self-Management in Chronic Conditions: Collaboration with Clients, 2010
35. Supporting Adults Who Anticipate or Live with an Ostomy, Second Edition, 2019
   • Replaced *Ostomy Care and Management*, 2009
36. Supporting and Strengthening Families through Expected & Unexpected Life Events, 2006
37. Woman Abuse: Screening, Identification and Initial Response, 2012
38. Working with Families to Promote Safe Sleep for Infants 0-12 Months of Age, 2014

*RNAO reserves the right to change the above list.*

Add additional rows as necessary to summarize the applicant organization's plans for guideline implementation.
Appendix D:  
Proposed Three Year Work Plan

The implementation of three (3) guidelines must be initiated in Year 1. The two (2) guidelines selected for organization-wide implementation must be implemented across the entire organization by the end of Year 2. Implementation of the required five (5) BPGs must be completed by the end of Year 2, at the latest, in order to allow for integration and evaluation in Year 3.

Appendix E:
Budget Template (sample)

The categories listed below are the required line items to be included in the annual budgets for the BPSO. Additional lines should be added to reflect any additional expenses anticipated beyond those listed in the key categories.

Please note that an individual budget is required for each year of the BPSO partnership – a sample one year budget template has been provided below.
