

**McGuinty Liberal Government Report Card
Update on Government Commitments
October 2007 – September 2011**

The following table lists RNAO's key expectations for the second term of the McGuinty Liberal Government, October 2007 to October 2011. The chart indicates what RNAO asked in its 2007 Platform, what the Ontario Liberal Party committed to during the October 2007 election, and achievements as of September 2011, on the eve of the October 6, 2011 election. The RNAO will continue to monitor closely and help the Government make the commitments reality for the remainder of its mandate. The table is based on RNAO's 2007 Pre-Election platform and that of the Ontario Liberal Party. Only those commitments that address demands in RNAO's own platform are included. Numbers in brackets indicate the platform page on which the commitment is made; when the source is a costing document, the reference appears in the following form: (c.7) to indicate page 7. Additional references are listed at the end. Unless otherwise specified, expenditure commitments are annual levels that would be reached after four years.
