

Promoting a palliative approach to care: Case study and panel discussion

The Registered Nurses' Association of Ontario Long-Term Care Best Practices Program, Behavioural Supports Ontario, Pain and Palliative Symptom Management Consultant, Directors of Care and Nurse Practitioners designed this interactive and free webinar for long-term care team members to demonstrate the benefits of a collaborative approach to palliative care.

Click [here](#) to register for Thursday, June 16, 2022, 1:30-3 p.m. ET

OR

[here](#) for Tuesday June 21, 2022 from 1:30-3 p.m. ET

Each session will cover the same content.

Join us as we walk through a resident's journey into long-term care (LTC), managing a chronic condition and transitioning to end of life.

A panel of experts will guide us through a case scenario highlighting the power of collaboration and resources available to assist LTC homes.

Objectives

During this presentation, participants will learn how to:

- Gain a better understanding of the RNAO best practice guideline.
- Identify key community resources available to support residents, families and team members.
- Design a resident-centered palliative care program.
