Jerusalem, Israel June 4-7, 2012

International Nursing Conference

NURSING: Caring to Know, Knowing to Care

Dear Colleague,

It is our pleasure and honor to invite you to the first international nursing conference entitled: "Nursing: Caring to Know, Knowing to Care" taking place in Jerusalem between the 4th and the 7th of June 2012. The conference is a joint effort of Nursing at the Hadassah Hebrew University Medical Center and the Canadian Registered Nurses' Association of Ontario (RNAO).

This unique professional meeting will provide an opportunity for nurses to share leading nursing interventions and ideas in various topics from all over the world. It will also serve as a platform for an open dialogue among the best minds of nursing research, practice, education and policy to promote nursing skills and talents in this era. International and Israeli Key note speakers have already agreed to take part on this special event. Oral and poster presentations will be included in the conference. We are planning to host many nurses from all over the globe.

The special setting of the conference is Jerusalem, which is ranked as one of the ten most beautiful cities in the world; home to the three major religions: Judaism, Christianity and Islam. It is a city rich in history and culture dating back over two thousand years. This unique city is a most appropriate venue to host this conference.

On behalf of the Organizing Committee we are pleased to welcome you to take part in this meeting. We are expecting it to be an exciting professional as well as a social and personal experience.

With a warm shalom and greetings from Jerusalem,

Sincerely yours,

Dr. Orly Toren
Conference Chair, Israel

Dr. Doris Grinspun
Conference Co-Chair, Canada
